For Immediate Release - BestCode Introduces the:

#### Affordable Model 81 Continuous Ink Jet Printer

BestCode launches the Model 81 System as "The Most Affordable Continuous Ink Jet Printing System". The Model 81 is targeted at the basic, entry level marking and coding applications printing 1 or 2 lines of text, barcodes or graphics.

Model 81 systems print real-time "Best By", "Lot Code", "Sell By", "Expiration Codes" and other identifying marks and codes to industrial and consumer goods to ensure product traceability. Print non-contact, immediate dry, permanent, high speed, reliable marks and codes on a wide range of substrates, including plastic, glass, paper and more.

Systems are simplified to allow anyone to operate, minimizing operator touches and extending time between human interaction.

Model 81 systems feature BestCode's CleanStart™ technology that automatically cleans the system eliminating daily and weekly manual cleanings. The included as standard, 10.4" Color Touch Screen is always on, providing a vivid display with large intuitive buttons and status indicators making the system easy to use. Employing OneTouch™ single step operator functions reduce operator steps eliminating mistakes. Ink is added On-the-Fly without print interruption in less than a minute with no waste. The Large Volume Ink Tanks extend time between fluid additions to weeks or months. At the end of the day, Model 81 systems feature BestCode's AutoOff™ Go Home Button automating and eliminating time consuming end of day manual routines.

#### Print Features:

- Print 1 or 2 lines of text, graphics and barcodes.
- Print images from .10" (2mm) to .50" (12mm).
- True Non-Contact Printing with ink throw distances from .5" (12mm) up to 2" (50mm).
- Print speeds up to 600 feet/minute (190Meters/minute).

The Model 81 System is enclosed in a "Built-to-Last", Industrial, All Metal, Stainless Steel Enclosure. The system is a compact, lightweight space saving design. Durable, Precision Crafted IP55 rated enclosure allows long term, reliable operation in all sorts of wet, dry, dusty, hot or cold applications.

Designed for the world market the Model 81 features more than 20 operation and print languages including all Latin based languages, Chinese, Arabic, Cyrillic, Korean, Thai, Vietnamese, Greek, etc. Systems utilize the Unicode character set with capabilities to print over 65,000 different characters and symbols.

BestCode products are backed by CodeProtect™, the industry's best coding system coverage.

#### About BestCode

BestCode Products are designed and manufactured in the USA, Fort Worth, Texas. For 25 years, the BestCode group continues to produce industry-changing, forward-thinking innovative industrial printing designs. Product designs are focused on ease of use, trouble-free operation, long-term reliability, and affordable cost of ownership with an emphasis on global market requirements.

BestCode products are sold and serviced through a worldwide network of factory-authorized, trained and certified distributor partners. BestCode products are marketed and supported in over 80 world markets. For more information, visit [www.bestcode.co](http://www.bestcode.co) (not .com).
