For Immediate Release –

BestCode Introduces the

Quantum

Continuous Ink Jet Printer

BestCode launches the Quantum Continuous Ink Jet Printer as "The Most Affordable Continuous Ink Jet Printing System".

The Quantum is a high speed printing system capable to print 1 – 4 lines of text, barcodes and graphics. Print real-time "Best By", "Lot Code", "Sell By", "Expiration Codes" and other identifying marks and codes to industrial and consumer goods to ensure product traceability. Print true non-contact, immediate dry, permanent, high speed, reliable marks and codes on a wide range of substrates, including plastic, glass, paper and more. A complete range of dye and soft pigmented inks are available in a variety of colors.

The Quantum is easy to use, simplified to allow anyone to operate, minimizing operator touches and extending time between human interaction.

Systems feature BestCode's AutoClean™ technology that automatically cleans the printhead routinely eliminating daily and weekly manual cleanings. BestCode's large 10.4" Color Touch Screen is always on, providing a vivid display with large intuitive buttons and status indicators making the system easy to use. Employing OneTouch™ single step operator functions reduce operator steps eliminating mistakes. Ink is added On-the-Fly without print interruption in less than a minute with no waste. At the end of the day, the Quantum features - BestCode's AutoOff™ Go Home Button automates and eliminates time consuming end of day manual date coder routines. "Go Home Button" means press the Power Off button and go home – the system self-cleans itself and powers the unit to an off state, ready to be started the next day.

Print Features:

- -Print 1, 2, 3, 4 or 5 lines of text, graphics and barcodes.
- -Print images from .10" (2mm) to .70" (18mm).
- -True Non-Contact Printing with ink throw distances from .5" (12mm) up to 2" (50mm).
- -Print speeds up to 1500 feet/minute (470Meters/minute).

The Quantum is enclosed in a "Built-to-Last", Industrial, Galvanized Metal Powder Coated Enclosure. The system is a compact, lightweight space saving design. Durable, Precision Crafted IP55 rated enclosure allows long term, reliable operation in all sorts of wet, dry, dusty, hot or cold applications.

Designed for the world market the Quantum features more than 20 operation and print languages including all Latin based languages, Chinese, Arabic, Cyrillic, Korean, Thai, Vietnamese, Greek, etc. Systems utilize the Unicode character set with capabilities to print over 65,000 different characters and symbols.

BestCode products are backed by CodeProtect™, the industry's best coding system coverage.

About BestCode
BestCode Products are designed and manufactured in the USA, Fort Worth, Texas. For 30 years, the BestCode group continues to produce industry-changing, forward-thinking innovative industrial printing designs. Product designs are focused on ease of use, trouble-free operation, long-term reliability, and affordable cost of ownership with an emphasis on global market requirements.

BestCode products are sold and serviced through a worldwide network of factory-authorized, trained and certified distributor partners. BestCode products are marketed and supported in over 80 world markets. For more information, visit www.bestcode.co (not .com).
